Questions / Comments

- IRB continuing review due July – in progress.
- Insulin data has been uploaded to REDCap and is now available.
- DBS-1030: Only hs-CRP and HCT were collected at the 4/13/26 visit. Missing A1c, basic metabolic panel, lipid panel, and homocysteine.
  - Should we attempt to contact the participant to return for completion of the missing labs, or may we proceed as is?

THANK YOU :)
